

A I R S E A L A N D P R O D U C T I O N S I N C .

All Splash Bags are tested thoroughly prior to leaving our facility for rental.

Air Sea Land (ASL) Productions will not be held responsible for damage to camera, related accessories or production time when using a Splash Bag. We cannot account for damages to the Splash Bag due to: Shipping, Courier Services, Operator Error, Operator Experience, Negligence or Accidents on route to/from or on location. Please carefully read all manuals associated with this product prior to use. Also, **PLEASE APPLY THE ZIPPER LUBE BEFORE YOUR FIRST USE AS PER THE INCLUDED INSTRUCTIONS.**

It is recommended if the client intends to fully submerge the Splash Bag while shooting that he/she **FULLY SUBMERGE THE SPLASH BAG BEFOREHAND WITHOUT A CAMERA INSIDE TO INSPECT FOR DAMAGES OR LEAKS.**

Please make sure the ZIPPER is fully closed from front to back before submerging underwater. If your camera package is tight in the bag, please make sure to double check that the zipper is sealed properly. If not, you need to reduce the size of the camera package. You may have to remove the viewfinder and/or removable top carry handles or anything else, which is contacting the inside top of the Splash Bag and interferes with the zipper.

Please **DO NOT WEAR BRACELETS, WATCHES OR RINGS** when using the splash bag. Please pay attention to your fingernails as well if using the glove.

Please clean the Splash bag before returning it to remove sand, dirt, water, moisture, etc. The splash bag should be returned in the same condition it was received.

A splash bag returned dirty and in need of cleaning will result in a minimum \$150 cleaning charge.

Please **DO NOT** use any harsh chemicals or detergents. Fresh water should suffice; otherwise baby shampoo and/or Armor All.

I understand and will follow the instructions above as I am the individual who will be using the equipment, or I will make sure to give these instructions to the individual who will be using the equipment during our rental.
